

Hitachi VSP F and G Series Differences: Models 350, 370, 700, 900 THI3408

COURSE DESCRIPTION

Delivery Type

- Instructor-Led Training (ILT)
- Virtual Instructor-Led Training (VILT)

Duration

- 2 days

Course Availability

- Employees
- Partners

Target Audience

- Pre-Sales
- Architect
- Install and Support
- Implement and Integrate

Required Knowledge and Skills

- Must be experienced in installing and operating VSP G200/G400/G600/G800

Supplemental Courses

- THI2651: Installing and Supporting Hitachi Virtual Storage Platform Midrange Family
- TCI2626: Introduction to Hitachi Storage Architecture

Course Description

This course provides an introduction to the new Hitachi VSP F and G series models 350, 370, 700, and 900. It focuses on the overall hardware and software architecture as well as highlights the differences with the previous VSP storage systems. In addition, this course walks through how to configure the storage system and how to launch and use Hitachi Storage Advisor (HSA) Embedded. This course is designed for those with pre-requisite knowledge of legacy Hitachi VSP storage systems.

This course prepares you for the following Hitachi Vantara Qualified Professional qualification test:

- Hitachi Vantara Qualified Professional - VSP F/G3x0-F/G700-F/G900 installation (HQT-4150)

Depending on the location and course delivery format, this closed-book, proctored qualification test may be offered and administered by the instructor at the conclusion of this course, using the [Kryterion Webassessor](#) system. It is also available at Kryterion testing centers.

Course Objectives

Upon completion of this course, you should be able to:

- Describe the hardware and software architecture
- Compare and contrast the differences with previous storage systems
- Describe and demonstrate the program products
- Identify and install the hardware components
- Initialize and configure the storage system
- Service and support the hardware components
- Launch and use Hitachi Storage Advisor (HSA) Embedded

Course Outline

Content Modules

- Introduction
- Overview
- Specifications
- Backend
- Maintenance
- Management GUIs
- Installation
- Software Features
