

COURSE DESCRIPTION

Installing Hitachi Virtual Storage Platform Gx100 and F1500 THI2526

Who Should Attend

- Architect
- Developer
- Field Engineer
- Presales
- Storage Administrator

Level

- Professional

Required Knowledge and Skills

- Enterprise level storage product knowledge is required

Prerequisite Courses

- None

Supplemental Courses

- Managing Hitachi Storage with Hitachi Command Suite v8.x (TSI2565)

Delivery Type

- Instructor-led Training (ILT)/ Virtual Instructor-led (vILT)

Course Length

- 5 days

This course provides information on the Hitachi Virtual Storage Platform (VSP) G1x00 and VSP F1500 enterprise storage system installation and configuration process for both mainframe and open systems. The course covers the hardware architecture, associated software utilities, installation processes, and step-by-step procedures to perform standard Field Replaceable Unit (FRU) maintenance on all supported configurations of the VSP G1x00 and VSP F1500 systems.

Hands-on lab activities enable you to gain practical knowledge and experience on installing, configuring, and maintaining VSP G1x00 and VSP F1500 systems.

Course Objectives

When you complete this course, you should be able to:

- Describe the Hitachi Virtual Storage Platform (VSP) G1x00 and VSP F1500 hardware architecture
- Identify the hardware components of VSP G1x00 and VSP F1500
- Access a VSP G1x00 or VSP F1500 system
- Install and set up VSP G1x00 or VSP F1500 in a customer environment
- Install license keys
- Change configuration for hardware upgrades
- Upgrade the microprogram

Course Outline*Content Modules*

- Overview
- Components
- Back End
- Interfaces and System Access
- Configuration
- Pre-Staging and Site Installation
- New Installation
- Microcode Exchange
- Change Configuration
- Tools
- Maintenance
- Internal Operations
- License Keys

Your roadmap to professional growth starts here!

Learning Activities — Labs

- Technical Documentation and System Access
- Component Identification
- Using the GUIs
- Back-End Architecture
- New Installation
- Microcode Upgrade
- Change Configuration
- Hardware Maintenance
- LDEV Ownership
- Hi-Track
- DKA High Performance Feature
- Two Module System
